**Program Objective**

The Scientists Center for Animal Welfare (SCAW) serves as an objective, credible source of information for the research community, media, and general public. SCAW's conferences/workshops will train participants in advanced research animal welfare, explore policy and management issues related to IACUCs and awareness of humane care and use of animals in research. The information learned at these conferences/workshops will have practical benefits that can be implemented in the daily work environment.

Each participant will receive an evaluation form to complete (enclosed), when the participant returns the completed evaluation form they will receive a certificate of attendance.
